Pelco Offers New IP Camera, DigitalSENTRY Integration

Clovis, CA, (January 15, 2008) – Pelco is pleased to announce that the Pelco Integral DigitalSentry product line of digital video management systems now provides seamless integration with both the Pelco Camclosure IP Series and IP3701 Series cameras.

DigitalSentry software allows customers to interface Pelco IP cameras in a hybrid configuration along with analog cameras; a hardware and software packaged NVR configuration; as well as a software only NVS solution whereby customers can use their PC Server platform of choice. The Pelco Integral DigitalSentry platform provides a scalable solution and offers an IT focused software suite comprised of options such as video analytics, Health & Event Monitoring and flexible Archive Utility.

Pelco's fixed IP cameras offer our customers wide open possibilities. Camclosure IP Rugged Mini Domes gives users flexibility with eight interchangeable optics packages. Having the choice of camera and lens combinations, like Wide Dynamic Range and Day/Night, provides our customers the options to have the perfect imaging solution for their application.

This new product release provides customers with:

- A Single Source Provider
- A World Class Pelco IP Camera Advantage
- A World Class Pelco DigitalSentry Network Video Recording Software Solution
- The advantage of Pelco Fanatical Customer Support

"We are excited about this integration," says Sara Scroggins, Pelco Product Marketing Manager – Imaging Systems. "This platform gives our customers new high-performance options for IP recording solutions based on their business size or preference."

"It is a natural fit," says Scott Kemp, Pelco Integral Video Product Manager. "Customers benefit from the synergistic integration of world-class products."

"This new alliance further demonstrates Pelco's commitment to openness by continuing to provide best-of-breed video solutions," says Terry Carver, Pelco API Business Development Manager at Pelco. "Our combined years of experience in the video security market has taught us that customers want flexibility, ease-of-use, and full-featured products, all backed by a company committed to customer satisfaction."

With the acquisition of Pelco by Schneider Electric, Pelco has merged with and assumed responsibility for the management of the Integral Technologies product line. From their extensive line of digital video recorders to electronic access control, Pelco is excited to incorporate these offerings into their product portfolio as well as extend their industry-famous fanatical customer support.

Pelco is a world leader in the design, development and manufacture of video security systems and equipment ideal for any industry. Pelco produces the security industry's most respected offering of discreet camera domes and enclosures, access control, video matrix systems, next generation digital video recorders, IP solutions, and fiber optic transmission systems for video/data – and much more.
