Roadway Series 125 Roadway Lighting Luminaires - Cutoff Style Cobrahead

200 - 400W HPS, 175 - 400W MV/MH

PRODUCT OVERVIEW

Features:

Rugged die-cast aluminum housing is powder-coated for durability and corrosion resistance. Optional two-bolt mast arm mount provides easy, secure installation and adjustability for arms from 1-1/4" to 2" (32mm to 51mm) diameter. Standard four-bolt mounting provides extra security in high-vibration applications.

Die-cast trigger latch on door frame enables easy and secure one-hand opening for re-lamping and maintenance.

Star Friendly™ cutoff distribution patterns available.

Large surface area "breathing seal" gasket seals the optical chamber to prevent intrusion by insects and environmental contaminants. Heat-resistant gasket material remains effective over the life of the fixture. Wildlife shield is cast into the housing (not a separate piece) with 2B option and is easily adjustable for 1-1/4" to 2" (32mm to 51mm) mast arms.

Photocontrol receptacle is adjustable without tools.

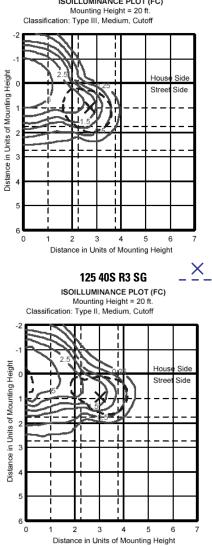

Anodized aluminum reflectors provide uniform lighting distribution with either flat or sag clear tempered glass.

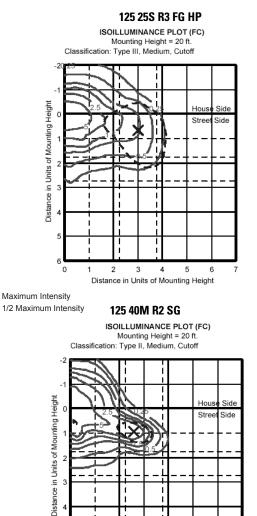

NEMA wattage label, terminal block, and photocontrol receptacle are standard.

All electrical components warranted by American Electric Lighting's 6-year guarantee. E39 mogul socket standard.

Complies with ANSI: C136.2, C136.10, C136.14, C136.15, C136.17, C136.31 Suitable for -30°C MH & MV / -40°C HPS.
