Standard Traffic

Valmont offers a vast array of traffic pole configurations to meet your needs. Whether you are looking for standard product or decorative product, Valmont delivers.

Our standard steel traffic poles help improve intersection functionality and appearance with their simple, clean designs. Our structures are available with standard fixed connection or with unique adjustable clamp-on connection for use with either straight or curved mast arms, with or without additional luminaire arms. Valmont offers a complete package tailored to exact specifications with a wide range of design, and our poles conform to meet your unique loading requirements. At Valmont, we design our traffic structures to exacting government standards, whether to 1994 AASHTO or 2001 AASHTO Specifications. Rest assured, our designs help keep your intersections safe and reliable.
